

Exam : HP HP0-091

Title : HP-UX System Administration

Update : Demo

1.How do you set up a device swap area and ensure it is active at each system startup?

- A.Start device swapping using the swapon command on an existing file system mount point.
- B.Start device swapping using the swapon command on a logical volume; add an entry to the /etc/fstab file.
- C.Start device swapping using the swapon command on a logical volume; add an entry to the /etc/sbtab file.
- D.Start device swapping using the swapon command on a logical volume; add an entry to the /etc/vfstab file.

Correct:B

2.Which commands can be used to create device files? Select TWO.

- A.mkdevice
- B.insf
- C.fsadm
- D.mkxf
- E.devstart

Correct:B D

3.What is the purpose of the lost+found directory?

- A.allows fsck to recover orphaned files and directories
- B.required on JFS file systems for journaling
- C.functions as a trash can for the file system
- D.a temporary storage for deleted files

Correct:A

4.Which command is used to recreate the /stand/system file?

- A.system_prep
- B.mkkernal
- C.vi system
- D.frecover
- E.sysgen

Correct:A

5.Which level is used by fbackup to complete a full backup?

- A.0
- B.1
- C.9
- D.F
- E.V

Correct:A

6.How does root allow an ordinary user to add/remove printers in SAM?

- A.not possible
- B.edit sam.allow
- C.set the UID bit
- D.establish a restricted build

Correct:D

7.Place the steps to install a fibre channel card in the correct order.

Order the correct steps to install a fibre channel card.

| Steps | Order |
|------------------|-------------------|
| install driver | place step 1 here |
| boot system | place step 2 here |
| run ioscan | place step 3 here |
| install hardware | place step 4 here |
| shutdown | place step 5 here |

Correct:

Green choice1---->Yellow Choice1

Green choice4---->Yellow Choice2

Green choice2---->Yellow Choice5

Green choice3---->Yellow Choice4

Green choice6---->Yellow Choice3

8.If /tmp is 100% full, which commands are used to determine its volume location and if free space is available on that disk?

- A.bdf, vgdisplay
- B.lvdisplay, diskinfo
- C.bdf, lvdisplay, pvdisplay
- D.vgdisplay, lvdisplay, diskinfo

Correct:C

9.Order the steps required to perform a complete integrity check of a journaled file system.

Order the steps required to perform a complete integrity check of a journaled file system /data

Steps

```
mount /data
```

```
fsck -F jfs -o full,nolog /data
```

```
fsck -F /data
```

Check the lost+found directory for orphans

Close all open files and directories

```
umount /data
```

```
shutdown -r now
```

Steps in order

place step 1 here

place step 2 here

place step 3 here

place step 4 here

place step 5 here

Correct:

Green choice1---->Yellow Choice4

Green choice3---->Yellow Choice1

Green choice5---->Yellow Choice2

Green choice4---->Yellow Choice5

Green choice7---->Yellow Choice3

10. During a run-state change from run level 1 to run level 2 , which script would be run last?

- A. /sbin/rc2.d/K900nfs.server
- B. /sbin/rc2.d/S500inetd
- C. /sbin/rc2.d/S430nfs.client
- D. /sbin/rc2.d/K200tps.rc
- E. /sbin/rc2.d/S620xfs

Correct: E

11. In which directory does HP-UX supply default templates for the user startup files?

- A. /usr/home
- B. /etc/skel
- C. /home/template
- D. /etc/tmp

Correct: B

12. Which statement is true regarding a device file's major number?

- A. It is determined by its hardware address.
- B. It points to the associated kernel driver.
- C. It is used to allocate buffer space.

D.It determines the device's interrupt priority.

E.It sets the kernel response timeout in tics.

Correct:B

13.What describes the difference between block and character I/O?

A.Block I/O is used to send data to disk and character I/O is not.

B.Character I/O is used to send data to disk and block I/O is not.

C.Block I/O goes through the buffer cache and character I/O does not.

D.Character I/O goes through the buffer cache and block I/O does not.

E.Block I/O is for large data transfers only and character I/O is for small data transferd only.

Correct:C

14.You attempt to unmount a file system, /mydata, and get an error stating "device busy". How do you determine the cause?

A.showmount -a

B.fuser -uc /mydata

C.showmount /mydata

D.mount -v /mydata

E.cat /etc/mnttab

Correct:B

15.Which file does an HP-UX administrator edit to turn the bootp daemon on at boot?

A./etc/bootp

B./etc/inetd.conf

C./etc/rc.config.d/netconf

D./etc/rc.config.d/netdaemon

Correct:B

16.What could possibly solve a paging problem?

A.add more NICs

B.add more CPUs

C.add more memory

D.add more internal disks

E.increase swap space

Correct:C

17.How do you change a volume group name without unloading the data?

A.It is not possible.

B.vgchange

C.vgexport, mkdir, mknod, vgimport

D.vgremove, mkdir, mknod, vgcreate

Correct:C

18.What does the pvcreate command create?

A.a hard partition

B.a physical volume device file

C.the lvm disk resident structures

D.the physical links

Correct:C

19.What do physical volume links (pv links) provide?

- A.access to a spare disk
- B.automatic load balancing
- C.an alternate path to a disk
- D.improved RAID performance

Correct:C

20.Which command shows all physical volumes in a volume group?

- A.vgdisplay
- B.pvdisplay
- C.lvdisplay
- D.lvmdisplay

Correct:A

21.A journaled file system intent log is used to _____.

- A.store user data prior to a physical write
- B.log meta data changes
- C.improve buffer cache performance
- D.provide an audit trail
- E.track mirror transactions

Correct:B

22.What are the main structures inside a journal file system? Select FOUR.

- A.mcells
- B.intent log
- C.fragment
- D.inode table
- E.superblock
- F.cylinder group
- G.allocation units

Correct:B D E G

23.Which directory contains the HP-UX kernel?

- A./stand
- B./etc
- C./var
- D./kernel

Correct:A

24.The default size of a physical extent in LVM is _____.

- A.twice the size of a logical extent
- B.the same size as the resident file system's disk block
- C.1/1024 of the total volume size
- D.1MB
- E.2MB
- F.4MB

Correct:F

25.Which I/O bus structures are found in new (circa 2004) HP servers? Select TWO.

- A.ISA
- B.PCI
- C.HSC
- D.PCI-X
- E.HP-PB

Correct: B D

26.What is the compatible SCSI interface for a DVD-ROM attached to an RX series system?

- A.Single Ended
- B.Low Voltage Differential
- C.High Voltage Differential
- D.High Voltage Single Ended

Correct: B

27.Which file contains the list of static routes to be configured at boot?

- A./etc/rc.config.d/route
- B./etc/rc.config.d/netconf
- C./etc/rc.config.d/netdaemon
- D./etc/route

Correct: B

28.Which file on an NFS server contains the list of currently mounted NFS file systems?

- A./etc/exports
- B./etc/xtab
- C./etc/fstab
- D./etc/exportfs

Correct: B

29.What is IP multiplexing on a UNIX host?

- A.binding more than one MAC address to a single network interface
- B.increasing throughput on the network interface
- C.binding more than one IP address to a single network interface
- D.binding the same IP address to multiple network interface

Correct: C

30.On an NFS server, what command would you use to determine which clients have mounted exported file systems?

- A.more /etc/mounts
- B.showmount -a
- C.more /etc/nfstab
- D.mount -v

Correct: B

Madecert.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially [Adobe](#), [Apple](#), [Citrix](#), [Comptia](#), [EMC](#), [HP](#), [HuaWei](#), [LPI](#), [Nortel](#), [Oracle](#), [SUN](#), [Vmware](#) and so on. And help you pass any IT Certification exams at the first try.

You can reach us at any of the email addresses listed below.
